### Take Your Experiences Global

Students in counseling programs have the opportunity to apply their counseling studies on a global scale through **Mercer On Mission** and study abroad opportunities. Each summer, students interested in study abroad opportunities travel with faculty to Holland and Bali to complete the Narrative Theory course. Through Mercer On Mission, students have the opportunity to travel to Kigali, Rwanda to initiate trauma assessments and facilitate treatments with widows and orphans affected by the 1994 Rwandan genocide.

**“This was my first big experience working with trauma counseling. It was emotional. It was intense. It was sad. It was scary. But it was also incredibly empowering, beautiful, and uplifting. It was the most fulfilling experience of my life. A lot of these people have never shared their story. They really embody survival, empowerment, and bravery.”**
